Carbon Reduction Plan

Net Zero since 2023

Calculated and produced by GovData 2024

COMMITMENT TO ACHIEVING NET ZERO

Drs. Direct Limited has been operating at Net Zero since **2023**.

BASELINE EMISSIONS FOOTPRINT

Baseline Year: 2023 (1/01/2023 – 31/12/2023)

The Carbon Reduction Plan has been completed in compliance with PPN 06/21. Our Carbon Emissions in 2023 were measured in line with GHG Protocol and include the greenhouse gases stated in the Kyoto Protocol.

Baseline year emissions: 2023		
EMISSIONS	TOTAL (tCO2e)	
Scope 1	0.00	
Scope 2	5.68	
Scope 3	0.00	
Included Sources	Business Travel	0.00
	Employee Commuting	0.00
	Upstream transportation and distribution	0.00
	Downstream transportation and distribution	0.00
	Waste generated in operations	0.00
Total Emissions	5.68	

CURRENT EMISSIONS REPORTING

Reporting Year: 2023 (1/01/2023 – 31/12/2023)

The Carbon Reduction Plan has been completed in compliance with PPN 06/21. Our Carbon Emissions in 2023 were measured in line with GHG Protocol and include the greenhouse gases stated in the Kyoto Protocol.

Reporting year emissions: 2023		
EMISSIONS	TOTAL (tCO2e)	
Scope 1	0.00	
Scope 2	5.68	
Scope 3	0.00	
Included Sources	Business Travel	0.00
	Employee Commuting	0.00
	Upstream transportation and distribution	0.00
	Downstream transportation and distribution	0.00
	Waste generated in operations	0.00
Total Emissions	5.68	

REPORTING PERIOD

Drs. Direct Limited will publish a Carbon Reduction Plan on a yearly basis detailing emissions released from UK Operations from 1st January to 31st December.

BASELINE YEAR & CURRENT REPORTING YEAR

Due to 2023 being the first year we have measured our CO₂e emissions since achieving Net Zero, the report for the Baseline Year and Current Reporting year contains the same figures. Due to this, the explanations below apply to both sets of data:

SCOPE 1

Scope 1 is reported as 0.00 tCO₂e in 2023 due to **Drs. Direct Limited** having no boilers, on-site manufacturing, a fleet or f-gases to report emissions on.

SCOPE 2

Within Scope 2, we have measured the emissions resulting from employees working exclusively from home. As all of **Drs. Direct Limited** employees are currently working remotely full-time, we have calculated the emissions generated from the consumption of purchased gas and electricity used for heating, lighting, and computer usage in home offices.

SCOPE 3

BUSINESS TRAVEL

The Business Travel Subset in Scope 3 is reported as 0.00 tCO₂e in 2023 due to **Drs. Direct Limited** not travelling by Air, Rail, Bus, travel in rental cars or travel in employee-owned vehicles.

EMPLOYEE COMMUTING

The Employee Commuting Subset in Scope 3 is reported as 0.00 tCO₂e in 2023 for **Drs. Direct Limited**. This is because, with employees currently working fully remote, there is no recorded data available for employee commuting.

UPSTREAM AND DOWNSTREAM TRANSPORTATION

The Upstream and Downstream Transportation Subset in Scope 3 is reported as 0.00 tCO₂e in 2023 as **Drs. Direct Limited** does not directly engage in upstream and downstream transportation meaning we are unable to quantify the emissions associated with those activities.

WASTE GENERATED IN OPERATIONS

As of now, **Drs. Direct Limited** does not have a waste removal provider. Therefore, we do not have access to specific data regarding CO₂e emissions related to waste disposal.

EMISSIONS REDUCTION TARGETS

Now we have achieved Net Zero, we will look into carbon offsetting the irreducible emissions generated within the next 5 years.

CARBON REDUCTION PROJECTS

COMPLETED CARBON REDUCTION INITIATIVES

The following environmental management measures and projects have been completed or implemented since the 2023 baseline.

- Employees work fully remote
- Minimising waste by promoting recycling
- Inform and provide training to staff on environmental concerns and policies
- Promoting the operations of greener homes and cleaning products
- We will look into offsetting the remaining emissions within the next 5 years

DECLARATION AND SIGN OFF

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate [Government emission conversion factors for greenhouse gas company reporting](#).

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors.

Signed on behalf of the Supplier:
